EXPERIENCE

08.2013-Present

Disney Foundational Technologies

SOLUTIONS ENGINEERING ARCHITECT: Unify & Performance Architecture

Consulting across teams to increase code and UX performance, drive standards for development, hiring and mentoring. Created service standards and worked with disparate teams to create a unified Disney Web Services platform, consolidating cloud service management UI.

04.2011-8.2013

Disney Connected and Advanced Tech.

SR. STAFF SOFTWARE ENGINEER: Web UI Frameworks

Architecting an extensible, module based framework, providing documentation, tutorials and supporting external teams with integration. Created and managed build service & automation, task management & allocation, team development & testing.

10.2008-04.2011

Avlan, LLC (stealth startup)

SENIOR WEB DEVELOPER: JavaScript, PHP, Architecture, Unit Tests

Developer #1. Architected full system from DB schema to UI framework. Created a TDD, continuous deployment pattern and dev practices to support a localizable multi-million user system.

01.2001-Present

ShadowPuppet, LLC

OWNER / CTO: Flash, PHP/MySQL, XHTML/CSS, JS, CMS

Freelance web development and consulting.

07.2007-02.2010

RIPL Corp: <http://ripl.com/root>

SENIOR WEB DEVELOPER: JavaScript, C#, Security, SVN, AWS, VMs

Turned an insecure, outsourced social network into an extensible, scalable, fast, secure product. Agile managed 3 developers. Rewrote front-end using ExtJs in OOP JS, secured middle tier and built robust cache systems. Architected AWS EC2 for v3.

01.2008-12.2009

Seattle Central Community College

INSTRUCTOR: Web Development Instructor & Guest CMS Lecturer

Instructor for 15-25 person classes. Wrote curriculum: <http://ipirates.net>

05.2005-08.2007

www.OwnYourPhone.com

CTO / WEB DEVELOPER: PHP/MySQL, Flash, AJAX, Design, Support

Architected and built LAMP stack with Ajax and Flash driven UI to serve a mobile phone custom ringtone trimmer from uploaded mp3s.

06.2005-11.2006

Sublime Media, LLC

WEB DEVELOPER: Flash, ActionScript, JavaScript, XML, Illustrator

Created eLearning training modules. Designed with Illustrator. Included XML data & CSS styles in Flash videos, using JavaScript to filter content and process learning objectives.
